We look forward to seeing you on Wednesday 08 June 2016.

The Radio Spectrum Policy Group (RSPG) was created by a European Commission Decision in 2002. Comprising the Commission and the spectrum authorities of the 28 EU Member States, the RSPG provides the Commission with advice on high level policy matters in relation to spectrum. Representatives of the EEA countries, the European Parliament and the regional and international bodies may attend as observers. Before being transmitted to the Commission, the RSPG's expert opinions are submitted to public consultations of all spectrum users, both commercial and non-commercial, as well as any other interested stakeholders. The RSPG therefore constitutes a unique platform for Member States, the Commission and all relevant stakeholders to discuss and co-ordinate regulation of radio spectrum.
